

File No.95/11

04.08.2014

By order dated 24th January, 2012 a report was sought (from Principal Secretary, Health). Reminder was given on 13th December, 2012. Till date no report has been received. The Commission feels that matter can be disposed of without the report of the concerned Department. The grievance was that there was non-availability of polio-vaccine in the district of Khagaria. I do not think that the state will refuse to make the vaccine available if it is not available. Therefore, the matter is disposed of with a direction to the Principal Secretary, Health Department to ensure that there is no scarcity and shortage of polio-vaccine in any district in the state of Bihar.

A compliance report that the vaccine has been made available in every district shall be furnished to the Commission within four weeks.
